

Dear Concerned Citizen:

Thank you for your support of the Post Office and postal services staying in Downtown Bay City. The Downtown Post Office building is truly an historic treasure, and the services provided at this location are a key component of the economic health of our downtown and our community.

The appropriate representatives for you to contact on this matter are your legislators in Washington D.C. We suggest you contact each of the following by email (preferred), fax or mail, and ask them to work on your behalf to keep the Post Office in Downtown Bay City.

Please Note: The following letter template has been provided to help you compose your letter or email.

Thank you!

*Candace Bales, Executive Director
Bay City Downtown Management Board & Development Authority*

RE: Downtown Bay City US Post Office

Dear NAME:

As a resident of Bay County and a concerned voter in your legislative district, I felt it was important to write this letter regarding the Post Office Building in downtown Bay City and the US Post Offices services provided there.

In our newspaper and on the local TV stations, it was recently reported that the Downtown Bay City post office building, 1000 Washington Ave., may be sold and the postal services moved to another location. I truly believe this decision would have a negative affect on our historic Downtown and the Bay City community.

The downtown Post Office offers a wide variety of post office and other Federal services in a convenient location. Plus, this location helps support our local economy since many visit the Post Office building, then stay Downtown for a meal, some shopping or a night on the town. This beautiful, historic building also needs to be preserved for our community and maintained for the purpose for which it was built.

As our representative in Washington D.C., I'm asking for your help in keeping the historic and treasured Post Office building up and running in Downtown Bay City.

Respectfully,
